OBJECTIVE

Passionate AWS architect as I spent many years in datacenters dreaming of redundant, scalable and available architectures.

SKILLS

AWS cloud architecture, building and maintaining infrastructure as code using AWS cloudformation and CDK. 20+ years experience in Linux based environments.

EXPERIENCE

CGI-PROGRAMMER/WETTERONLINE

2000-2004

CGI programmer (C++) for web applications and maintaining/programming of customer related applications.

TEAM LEAD SYSOPS/WETTERONLINE

2004-2018

Head of the datacenter and office IT-Team including 7x24 on call shifts. Many big projects like introducing monitoring solutions, implementing content delivery networks (Akamai) and more. Partial responsibility for personnel acquisition.

CLOUD ARCHITECT/WETTERONLINE

2018-today

Sysops tasks in our AWS environment, including user management, event driven lambda programming for monitoring tasks and compliance checks and cloudformation/cdk stacks for web applications.

EDUCATION

DIPLOMA IN METEOROLOGY/2000

University of Bonn, final grade 1,0

DIPLOMA (FH) IN INFORMATICS 2007

University of applied sciences, Trier, final grade 1,1

CERTIFICATIONS

AWS certified Solutions Architect Associate, since December 2018
